PROFESSIONAL SUMMARY

Strategic IT Infrastructure Manager and Systems Architect specializing in enterprise-scale device management, institutional IT governance, and large-scale capital asset procurement. Proven track record of directing digital ecosystems for 630+ active daily users and orchestrating multi-hundred-thousand-SAR procurement portfolios and specialized STEM lab assets across institutional environments. Expert in network architecture, policy design for digital safety, and spearheading accreditation pathways (Cognia, Apple Distinguished School). Adept at developing custom enterprise software solutions, orchestrating tier-one vendor partnerships (Smart, Jawra, UBTECH, PICO VR, SciVR, Makeblock, LEGO Education, Apple), and fusing high-level governance with precision classroom execution.

TECHNICAL & OPERATIONAL COMPETENCIES GRID

Domain	Core Competencies & Technologies
Network & Infrastructure Architecture	Topology Planning, High-Availability Design, Fortinet 200F, HPE Instant On, Aruba AP25, IP Addressing & Subnetting, VLAN Segmentation.
Unified Endpoint Management (UEM)	Zero-Touch Deployment, Microsoft Intune, Jamf Pro, Apple School Manager (ASM), AppleCare Service (ACE).
IT Governance & Strategic Partnerships	Cognia Compliance Frameworks, Apple Distinguished School (ADS) Pathway, SMART Ambassador, Vendor RFQs & Contract Procurement (Smart, Jawra, UBTECH, PICO VR, SciVR, Makeblock, LEGO Education).
Academic & Financial Systems Innovation	Workflow Automation, Next.js, Python, Streamlit, Data Visualization, Digital Safety Policies, Faculty Training Frameworks (Google, Microsoft, Lumio, Apple, Smart).

PROFESSIONAL EXPERIENCE

Head of Tech & Innovation Department / IT Lead

Yenepoya International School | Khobar, Saudi Arabia | May 2025 – Present

- Accomplished zero-touch automated provisioning for an active estate of 350+ Apple iPads and 80+ Windows PCs as measured by the total elimination of legacy imaging turnaround times, by integrating Apple School Manager (ASM), Jamf Pro, and Microsoft Intune alongside structured AppleCare replacement workflows.
- Accomplished large-scale capital deployment and asset procurement exceeding SAR 1.5M+ in cumulative institutional spend as measured by managing high-value acquisition portfolios—including enterprise SMART Board interactive displays (spanning multi-unit rollouts of 30, 12, and 10 units), high-volume Apple iPad fleets, Microsoft 365 cloud license migrations, and specialized robotics/STEM lab assets.
- Accomplished institutional compliance and accreditation milestones as measured by successfully authoring and executing the technical frameworks required for Cognia accreditation and initiating the strategic pathway toward Apple Distinguished School (ADS) designation.
- Accomplished the enforcement of enterprise digital safety and operational governance as measured by 100% policy adoption across 630+ users, by designing and deploying comprehensive institutional policies covering internet safety, device usage, auditorium event IT requirements, and AppleCare asset lifecycles.
- Accomplished academic innovation excellence and faculty enablement as measured by driving multi-platform professional development pathways (Google, Microsoft, Lumio, Apple, Smart) as a certified SMART Ambassador, structuring vendor-aligned training schedules, and negotiating tier-one vendor contracts with Smart, Jawra, UBTECH, PICO VR, SciVR, Makeblock, LEGO Education, and Apple.
- Accomplished the elimination of manual accounting errors as measured by streamlined operations for Admissions and Accounts departments, by architecting the custom Yenepoya Fee Calculator (Streamlit) and a Python/Next.js Automated Fee System to dynamically compute late penalties and tax rules.

- Accomplished high-availability campus network optimization as measured by resolving persistent legacy infrastructure bottlenecks, by planning a cost-effective, segmented VLAN topology utilizing HPE Networking Instant On, FortiGate 200F, and Aruba AP25 hardware.

Operations & Acting Company Representative (IT/Operations)

Ideal Future Trading Est. | Dammam, Saudi Arabia | Jan 2022 – Apr 2025

- Accomplished the stabilization of SMB client IT infrastructure as measured by improved responsiveness and a reduction in repeat system incidents, by designing practical ticket triage escalation pathways and delivering hands-on device rollout and support.
- Accomplished the expansion of B2B service pipelines as measured by the successful procurement of cost-effective hardware solutions, by serving as the acting company representative to meet clients, scope technical requirements, and present tailored commercial offers.

Telecom Sales & Pre-Sales Engineer

Communication Solution Company (CSC) - Subcontractor for Mobily | Khobar, Saudi Arabia | Oct 2023 – Jan 2024

- Accomplished the successful closure of enterprise networking deals as measured by consistently meeting sales targets with prominent corporate accounts like Abdullah Fuad and Rosen, by delivering consultative engineering assessments and designing tailored telecom solution architectures.
- Accomplished the alignment of product capabilities with client needs as measured by high post-sales client satisfaction, by utilizing a balance of technical pre-sales strategy, B2B pipeline development, and genuine client relationship nurturing.

KEY SYSTEMS & SOFTWARE PROJECTS

Institutional Governance & Accreditation Frameworks: Designed and instituted comprehensive digital safety policies, internet usage protocols, auditorium event IT workflows, and student iPad distribution pipelines that directly secured institutional compliance for Cognia accreditation and laid the foundation for the Apple Distinguished School (ADS) pathway.

Multi-Platform Faculty Enablement & SMART Ambassadorship: Architected and executed a structured cross-platform training ecosystem integrating Google, Microsoft, Lumio, Apple, and SMART tools, establishing a standardized faculty competency model as a certified SMART Ambassador.

Automated Fee System & Calculator: Engineered a Next.js and Python-driven fee computation engine (via FastAPI/child_process) and a Streamlit frontend to automate complex tuition calculations, tax logic, and audit reporting, completely bypassing manual Excel errors.

YREF STEM Framework & Lab Standardization: Established a permanent, vendor-agnostic robotics ecosystem (YREF v1.0) governing 630+ users, encompassing a 34-session annual scheme of work, rigorous 4-tier badge promotion matrices, and large-scale vendor procurement management for UBTECH, PICO VR, SciVR, Makeblock, LEGO Education, and SMART assets.

Enterprise MDM Fleet Integration: Pioneered a highly specialized deployment framework across the Eastern Province integrating AppleCare Service for Enterprise (ACE) with Jamf Pro and Windows Autopilot, successfully standardizing identity and access for 430+ active endpoints.

CERTIFICATIONS & PROFESSIONAL TRAINING

- CCNA 200-301: Network Fundamentals (Simplilearn) — Completed Sep 3, 2023 (Cert. Code: 4489483)
- Data Science with Python (Simplilearn) — Completed Aug 20, 2023 (Cert. Code: 4464651)
- Introduction to Data Visualization (Simplilearn) — Completed Sep 20, 2023 (Cert. Code: 4523485)
- IP Addressing and Subnetting - Zero to Hero (Udemy) — Completed Aug 23, 2023 (Ref. No: 0004)
- STEM Training Sessions & Professional Development (STEM Nexus Arabia & Skool21) — Completed Sep 2025 (18 Professional Development Hours)
- SMART MX-V5 Display with iQ & iQ 3 Technical Training (SMART Technologies) — Certified Professional Development
